			<p>matters. Any application for development should be preceded by, and consistent with, the Masterplan.</p> <p>IV. The site will be planned comprehensively to create a new sustainable community incorporating Garden City principles.</p> <p>V. The developer must demonstrate the extent of the mineral that may be present and the likelihood of prior extraction in an environmentally acceptable way has been fully considered. As a minimum, an assessment of the depth and quality of mineral, together with an appraisal of the consequential viability for prior extraction without prejudicing the delivery of housing within the plan period should be provided.</p> <p>VI. The developer will submit a detailed remediation strategy designed to secure a permanently safe environment for the human population and local wildlife and that following remediation will submit sufficient information to demonstrate that the site is not capable of being determined as contaminated land under Part IIA of the Environmental Protection Act 1990.</p> <p>VI.VII. In accordance with the relevant Local/District Plan policies the site will provide for:</p>
